G-2 THE MOST VISITED SEAPORTS IN THE REPUBLIC OF CROATIA, JANUARY – NOVEMBER 2022

NOTES ON METHODOLOGY

The purpose of the statistical survey

The statistical survey is aimed at monitoring the entries of foreign vessels on cruise in the internal sea waters of the Republic of Croatia, the number of passengers aboard and the days in which a ship stays in the internal sea waters of the Republic of Croatia. The results of this survey provide indicators used in the analysis of tourism in the Republic of Croatia.

Legal basis

The survey is carried out on the basis of the Official Statistics Act (NN, No. 25/20).

Sources and methods of data collection

The data source for the statistical survey on cruises of foreign vessels in the Republic of Croatia is the Croatian Integrated Maritime Information System (CIMIS). The Croatian Bureau of Statistics takes over a part of the database from the Ministry of Sea, Transport and Infrastructure, after which it performs further processing.

Among other data, ships submit information on the ship, journey and passengers to this system through authorised maritime agents and shippers. The accuracy and completeness of the data in the official proceedings of registration is verified by the harbour master's offices.

Coverage and comparability

Observation unit for this survey is a foreign vessel on a tourist cruise that enters the internal sea waters of the Republic of Croatia.

In the tables 1, 2 and 3, the data on foreign vessels on cruise include only **seaports of the first entry** of the foreign vessel on cruise into the internal sea waters of the Republic of Croatia.

In the Graph G-2, the data on visits of foreign vessels on cruise include **all seaports** visited by those vessels during their stay in the internal sea waters of the Republic of Croatia. Visits in seaports are presented by statistical seaports consisting of one or more ports, normally controlled by harbour master's branch offices able to record ship and cargo movements.

Definitions

Foreign vessel on cruise means a passenger ship intended rather to provide passengers with a pleasure of a journey and facilities for entertainment aboard (luxurious atmosphere, adventures, education, culture, entertainment, sports activities, wellness or recreation) than the transport of persons from one seaport to another. It is equipped

for a multi-day stay of passengers aboard and must provide food, drinks and accommodation services. On its journey, a foreign vessel on cruise stops in seaports of several interesting destinations.

A **journey** is an entry of a foreign vessel on cruise into the first seaport of the internal sea waters of the Republic of Croatia.

Visit is an entry of a foreign vessel on cruise into every seaport of the internal sea waters of the Republic of Croatia.

Passengers on board are any persons who arrived by ship irrespective of age, providing that he/she is not a crew member.

Sojourns represent a total number of days a ship spends in the internal sea waters of the Republic of Croatia.

Flag of vessel represents the country in which a ship is registered, that is, entered into the ship registry and is bound by its laws.

Statistical seaport consists of one or more ports, normally controlled by harbour master's branch offices able to record ship and cargo movements.
