# ANNUAL PURCHASE AND SALE OF AGRICULTURAL PRODUCTS, 2022

The total purchase and sale value of agricultural products in 2022 amounted to 11 927.9 million kuna. Out of that, the sale from own production of business entities amounted to 6 902.8 million kuna or 57.9%, while the purchase from private family farms amounted to 5 025.1 million euro or 42.1%.

Compared to 2021, the purchase and sale value of agricultural products increased by 29.2%, out of which the value of sale from own production of business entities increased by 30.4%, whereas the value of purchase from private family farms increased by 27.5%.

The increase in the total value of purchase and sale at the annual level was affected by crop and animal products, which was caused by increased prices and quantities of both crop and animal products.

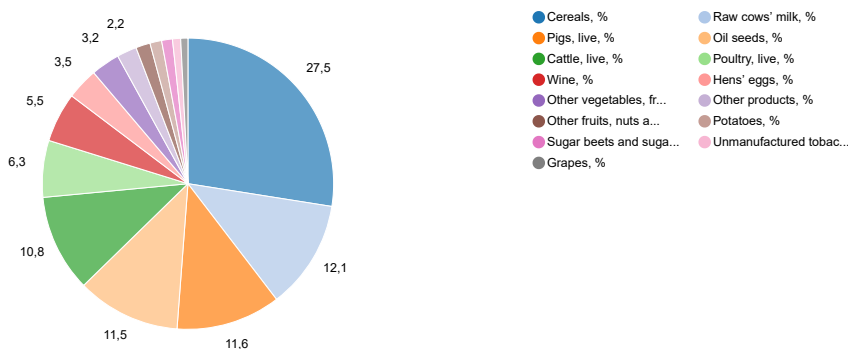

The groups of crop products that had the highest shares in the value of sold and purchased products in 2022 were cereals, 50.0%, oilseeds, 20.9%, wine, 10.0%, and fresh vegetables, 5.8%. The value increased in all of the mentioned groups of products. The increase in value in the groups of oilseeds and fresh vegetables occurred equally as a result of increased quantities and of purchase and sale prices. The increase in the cereals group was due to higher purchase and sale prices.

The highest shares in the value structure of animal production were accounted for by cows' milk, 26.8%, pigs, 25.8% and cattle, 24.0%. The increase in value was recorded in all of the mentioned groups of products. The increase in value in the groups of cows' milk, pigs and cattle was influenced more by purchase and sale prices than by quantities.

## G-1 SHARE OF PURCHASE AND SALE IN TOTAL VALUE OF PURCHASED AND SOLD AGRICULTURAL PRODUCTS, 2022

## G-2 STRUCTURE OF PURCHASE AND SALE VALUE OF AGRICULTURAL PRODUCTS, 2022

## 1 VALUE OF PURCHASED AND SOLD AGRICULTURAL PRODUCTS

### 3 AVERAGE PRODUCER PRICES OF SELECTED AGRICULTURAL PRODUCTS, 2022

	Unit of measure	Average price, kuna		
		Total	From purchase	From purchase
Soft wheat, winter – mercantile (13% of moisture; 2% of dirt)	t	2 243,44	2 185,64	2 340,85
Maize – mercantile (14% of moisture; 2% of dirt)	t	2 188,14	2 193,28	2 173,10
Soya beans	t	4 541,46	4 517,62	4 588,42
Lucerne	t	841,72	615,80	844,56
Onions	kg	2,73	2,64	2,80
Carrot – for consumption	kg	3,45	2,84	3,62
Cabbages, all types	kg	2,27	2,19	2,50
Apples – for consumption	kg	3,28	2,64	3,44
Table wine (with or without label of geographic origin)	l	8,35	12,24	8,35
Olive oil	l	92,22	69,25	94,52
Calves for slaughtering	kg	27,06	28,27	20,70
Bovine yearlings for slaughtering	kg	19,40	19,88	19,32
Raw cows' milk	l	3,27	3,16	3,43
Pigs, over 50 kg	kg	10,67	11,67	11,22
Broilers	kg	8,85	8,88	8,83
Consumer eggs	p/st	0,99	1,50	0,99

## NOTES ON METHODOLOGY

### Source and methods of data collection

The data on the sale and purchase of agricultural products are collected on a quarterly basis through the PO-31a/Q and PO-31b/Q forms.

The reporting units for which quarterly reports on the sale and purchase of agricultural products are submitted (PO-31a/Q and PO-31b/Q forms), are legal entities and parts thereof and tradesmen classified into section A Agriculture, forestry and fishing – division 01 (except for group 01.7 Hunting, trapping and related service activities) as well as other legal entities and tradesmen engaged in the processing and purchasing of agricultural products, classified in other activities according to the NKD 2007.

Regarding its contents, the questionnaire has been harmonised with the Handbook for EU Agricultural Price Statistics, 2008.

Forestry and fishing data are taken over from administrative sources and published at the annual level according to the Calendar of Statistical Data Issues in basic First Releases concerning forestry and fishing statistics.

### Coverage

The coverage for the sale and purchase of agricultural products is selective. It includes legal entities employing 10 or more persons and tradesmen employing 5 or more persons.

The PO-31a/Q form explores the sale of agricultural products from own production of legal entities and parts thereof as well as tradesmen.

The PO-31b/Q form explores the purchase of agricultural products from family farms aimed at further sale or processing.

The purpose of the survey is collecting data on average producer prices of agricultural products. It should be noted that, due to the selective coverage, the obtained data do not represent the total purchase and sale on the territory of the Republic of Croatia.

The questionnaire contains quantities, values and average prices.

The PO-31a/Q and PO-31b/Q forms cover 144 products of crop and animal production.

### Definitions

**Average producer prices** are those including taxes (excluding VAT), while subsidies are excluded.

**Plants predominantly for use in perfumery and pharmacy and similar purposes** include chamomile, lavender and other plants for use in perfumery and pharmacy.

**Oil seeds** include soya beans, rapeseed and sunflower.

**Planting material** includes fruit seedlings, vine and berry seedlings.

**The data on wine and olive oil** cover only the products made from grapes and olives from own production.

**The price of soya beans** also includes soya beans intended for seed production.

The data on **horses, donkeys, mules and hinnies** refer to horses for slaughter.

**Other bred animals, live**, refer to rabbits.

**Other bred animals' product** refers to natural honey.

The survey whose data are published in this First Release has been conducted with the financial assistance of the European Union. The contents of this document are the sole responsibility of the Croatian Bureau of Statistics and can under no circumstances be regarded as reflecting the position of the European Union.
